File #: 95-243506	
1. There is insufficient documentation to determine if the hair comparison was performed in	n a scientifically
acceptable manner.	
#2. The results are not adequately documented in the notes. The notes are not dated, are in p	encil and have
some erasures. Some bair were deemed unsuitable with no documented reason or explanatio	n. The
examiner uses abbreviations that are difficult to interpret. Some questioned hair were matche	ed or eliminated as
coming from the known samples without characterization of the microscopic characteristics	observed in these
questioned or known hair. The technicians do not document the recovery of any hair from the	e questioned items.
#4. In the 1982 transcript, the examiner testifies "I processed", "I found", "I examined", "I r	emoved" when its
more likely the technicians processed and removed the questioned hair from the items.
